

Workshop Series Announcement

Getting prepared – Reintegration into job markets

You are enrolled at a development related study program and worried, whether you will be able to find an adequate job? You want to know a strategy on how to convince potential employers about your interdisciplinary knowledge and your international experience?

The Workshop Series aims at preparing you for your professional return. It offers you a mix of workshops and discussions. You get the chance to reflect on your own strengths and values, get information on the job application process and about financial support programs (CIM) and to check your application portfolio. AGEP-Alumni will report to you about their experiences after finishing the German study program and will give you advices on how to avoid typical obstacles. The Alumniportal offers an individual career coaching for graduates or almost graduates.

You can participate in all activities or just in the session, you like to choose.
